To set up a fundraising page/ get friends to sponsor your ride

If you would like to promote your cycling challenge and get friends to contribute to a larger fundraising goal, we suggest you use the crowdfunding site "Backabuddy". (This site has very low service fees for our charity, so although it is not a fancy site, it gets the job done!).

[Here is a link to set up your fundraising profile](#) on their site. It takes just 1 minute to fill in. You can use this link to share on social media and ask friends to donate through the site towards your fundraising goal.

(If the above link doesn't work, copy and paste this into your browser:

You can also download the images on the website in the fundraising pack to help advertise and spread the word on social media.
